You are hereby requested to attend the launching of the 2004 Philippine Environment Monitor (PEM) on 20 June 2005, 9:00 a.m. at the Visitors' Center, Protected and Wildlife Bureau (PAWB) Compound, North Avenue, Quezon City.

The PEM 2004 provides a status of the Philippine environment for the last five years, using environmental indicators covering the brown, blue and green environments. Relevant national laws, policies and institutions in natural resources and pollution management are also discussed in the Monitor.

The PEM publication is a product of DENR and the World Bank and it has been providing a snapshot of key environmental trends and indicators in the country for the last five years:

2000 -	General State of the Environment
2001 -	Solid Waste
2002 -	Air Quality
