---

Following the conduct of two workshops for the Strategic Review of the DENR Vision, Mission and Core Functions on October 11, 12 and 17, 2005, the OD consultants shall now present results and findings gathered from these workshops. The presentation will lead to some decisions that we have to make in order to give the directions for subsequent activities and the preparation of the DENR Rationalization Plan.

As this presentation will be one of the few activities that will be held prior to the finalization of the agency's rationalized structure, your attendance in the meeting will be critical in major decisions that will be made.
