**MEMORANDUM**

**FOR/TO** : All DENR Central Office Officials and Employees

**FROM** : The Undersecretary  
Finance, Information Systems and Climate Change

**SUBJECT** : **STATUS OF INTERNET CONNECTIVITY OF THE DENR  
CENTRAL OFFICE**

**DATE** : October 21, 2020

This is to update you on the status of Internet connectivity of the DENR Central Office. Currently, we are subscribing to two (2) Internet Service Providers (ISP) namely PLDT and Converge that provide us with 800 megabytes per second connection each for a total of 1.6 gigabytes per second Internet speed. These are shared with the almost one thousand (1,000) users of the Central Office most of which have at least two or three devices (desktop, laptop, mobile phones, etc.) connected.

We are currently in the process of upgrading our Wireless Access Points and fiber optic connection in order to increase the Internet speed that can accommodate the needs of our officials and employees. The procurement for these projects is already underway and targeted to be installed in December 2020.

For your information and understanding. Please do not hesitate to send us feedback and other concerns to serve you better during this pandemic.
