FROM : **The OIC- Director, Policy and Planning Service**

SUBJECT : **DRAFT DENR MEMORANDUM ORDER (DMO) RE:  
ADOPTING THE REVISED STATISTICAL REPORTING  
FORMS ON FORESTRY**

DATE : **22 DEC 2020**

---

## BACKGROUND

- The Forest Management Bureau (FMB)'s initiative to improve and revise the current forestry statistical forms and its reporting procedures came as a major agreement during the following workshops conducted by the Bureau: *Philippine Forestry Statistics Assessment Workshop* in August 2018 and *Consultative Meeting/Workshop on the Assessment and Review of the Philippine Forestry Statistics* in November 2018.
- Following this, a series of activities were conducted to discuss the revised forms and the draft DMO Adopting the Revised Statistical Reporting Forms on Forestry:
  - Pilot-Testing of Forms in selected regions (NCR, Regions 3, 4A and 13) in April and May 2019;
  - DENR Technical Committee on Statistical Concerns and Coordination in November 2019; and
  - Orientation Workshop on the Revised Forestry Statistical Forms in February 2020.
- The Statistical Reporting System (SRS) was developed pursuant to DENR Administrative Order (DAO) No. 1989-133 as amended by DAO 1994-10. Later on, the forms were revised by virtue of DAO 1999-09. In the current System, the following forestry data were collected from the DENR Field Offices: production and disposition of forest products, issuances of approved forestry license/permits, and employment.

## SALIENT FEATURES

- The Regional Offices shall submit electronic copy of reports using the prescribed spreadsheet format through their respective official email address to FMB;
- Unified form for the Log Production and Disposition;

- New form for Tree Cutting and Disposition;
- Inclusion of source data and disposition data for Fuelwood and Wood Charcoal Production;
- Separate form for the local and imported input for Lumber Production and Veneer Production;
- Unified form on production and disposition for Plywood and for Other Wood-Based;
- Inclusion of disposition data and geographic coordinates for the source of Non-timber Production;
- Inclusion of geographic coordinates of the area of operation of the approved forestry license, permit, and tenure instrument;
- Removal of form FS 10 (Employment); and
- Additional fields such as beginning balance, ending balance, address of buyer, complete business address of permittee, company name, company address, and country of origin.

### **ACTIONS TAKEN**

The draft DMO was endorsed to this Office by FMB in a memorandum dated 18 December 2019. It was supposedly scheduled for PTWG deliberation on 07 February 2020, however due to changes in the priorities of FMB, the discussion of the policy was deferred. The draft policy was finally deliberated by the PTWG in its meeting on 01 December 2020.

Thereafter, the PTWG Secretariat incorporated some minor comments and the revised version of the draft DMO was endorsed to FMB in a memorandum dated 02 December 2020 to secure additional inputs on the substantive comments of the PTWG.

The revised version of the draft DMO was submitted by FMB in a memorandum dated 16 December 2020.

### **ACTION REQUESTED**

Should you concur with the proposed DMO, please notify this Office in writing **on or before 29 December 2020**. Otherwise, your lack of feedback shall be considered as your concurrence or no objection to the said proposed policy, which we shall endorse for vetting by the Undersecretaries prior to the approval by the Secretary.

Attached is the draft DMO re: Adopting the Revised Statistical Reporting Forms on Forestry, for your consideration.
