MEMORANDUM

FOR/TO : All Officials and DENR Employees

FROM : The Director
Knowledge and Information Systems Service

**SUBJECT : INSTALLATION OF MOBILE SECURITY SOFTWARE FOR
OFFICIALY ISSUED MOBILE PHONES OF THE DENR
CENTRAL OFFICE**

DATE : 26 April 2021

In line with the DENR's effort to protect its ICT network infrastructure and resources from cyber threats, the Knowledge and Information Systems Service recently purchased mobile endpoint security for subscribed corporate mobile devices for the DENR Central Office.

The mobile endpoint security protects you against malicious apps, ransomware, dangerous websites, unsafe Wi-Fi networks, and unwanted access to your device, among others. It also optimizes your mobile phone to keep it running at peak performance. It's available for both Android and IOS devices.

The software is only available to DENR Central Office corporate mobile devices that are officially issued to an official or employee.

Should you have questions, clarifications or any inquiries with the optional software installation, you may contact KISS-NIMD at VOIP 1143 or (02)8926-4806.

For your information and guidance.

MARIA ELENA A. MORALLOS MANILA

cc : The Undersecretary
Finance, Information Systems and Climate Change

The Assistant Secretary
Finance, Information Systems and Mining Concerns
