Dear BGen Edjawan,

As our country continues to grapple with the loss of lives and livelihood caused by the pandemic, the Office of Cong. Alan Peter Cayetano seeks to formulate policies to support the plans and programs of various government agencies, which will help our country recover from the economic losses across all industries, as well as to improve the public services for the Filipino people. In relation to the research that we are conducting, may we request the following information:

1. Current internet connectivity subscription in the head office and satellite offices of the agency.
2. Current agency's priority programs and projects.
3. Most critical issues and problems (top 5) that the department needs to address and the actions needed.
4. Significant departments/government agencies that the agency coordinates with to implement projects and programs (other stakeholders)
5. Departmental organization and policy reforms that may be needed, innovations, and special projects that may make a quantum difference in the performance of the department and the country as a whole, and the feasibility (cost/benefit, implementability).

For further clarifications on our request, please do not hesitate to contact me via e-mail or mobile.

Thank you and Stay Safe!
