MEMORANDUM

FOR : The Assistant Regional Director for Technical Services
All Regions, Except NCR

ATTENTION : The Head, Regional CARP Coordinating Office
The IVAS Regional Focal Person

FROM : The National Coordinator
DENR-CARP National Coordinating Office

SUBJECT : **SUBMISSION OF CATCH-UP PLAN ON IVAS OF DAR
SURVEY FOR CY 2021 AND IVAS OPERATIONAL ISSUES
AND CONCERNS**

DATE : September 08, 2021

This has reference to the Department's performance on DAR submitted Survey Returns (SRs) for IVAS in support to DAR's issuance of CLOA.

Please be informed that for this year, based on submitted consolidated regional accomplishment report (as of August 31, 2021), on submitted DAR SRs vis-à-vis IVAS annual target, ten (10) Regions (Regions 2, 3, 4-A, 4-B, 5, 6, 7, 9, 10, and 13) registered with low submission/accepted of SRs which ranges from 2% to 63% except for regions 1, 8, 11, 12, and CAR which have the submission of more than 70% and even exceeded the annual target by Regions 1 and CAR.

After assessing the reports on the approval of DAR submitted SRs for the eight-month period, please note, that out of the total SRs **on-hand of 40,051 hectares**, we have **processed a total of 26,738.67 hectares** or **67%** against the total on-hand and leaving the **remaining 33% or 13,313 hectares still pending/on-going**. Of the total processed, we have **approved 15,684 hectares or 59%**, which can be translated to a monthly average rate of approval of DAR SRs at only 1,961 hectares from January to August. Hence, with this rate of approval, the Departments performance represent only 36% against the annual target of **43,711 hectares** per approved work and financial plan. The high rate of *Returned SRs to DAR for Correction* and low submission of DAR SRs in some regions should also be given attention by DENR Survey and Mapping Division (SMD) particularly by DAR regional offices because this affect our productivity in terms of the approval of DAR survey.

With the aforementioned remaining balance or still pending/on-going SRs and considering that we have barely four (4) months left for the year, may we advise the concerned regions with low submission of DAR SRs as well as with low approval rate of process SRs to discuss this matter with your DAR regional counterpart to identify

intervening factors that have contributed to the low submission of DAR SRs and approval and come up with strategies to accomplish the remaining targets before the year ends.

In this regard, may we respectfully request your office to submit on or before September 17, 2021 your catch-up plan, as well as well DAR and DENR operational issues and concerns.

For reference attached is the consolidated regional accomplishment report and the templates to be used in the submission of the abovementioned subject.

For your information and immediate action, thank you.

ENGR. HENRY P. PACIS
National Coordinator
DENR-CARP NCO
