The UK is offering 10 fully funded scholarships for legal advisors and/or relevant officials from ASEAN Member States (AMS) focusing on maritime issues. In the meantime, the procedure for the filing of applications will run as scheduled.

International Foundation for the Law of the Sea (IFLOS) Summer Academy Scholarship Programme

Summary

10 x UK funded scholarships for officials from ASEAN Member states to participate in the 4-week IFLOS Summer Academy in Hamburg, Germany.

Background

The International Foundation for the Law of the Sea (IFLOS) was established to promote the opportunities provided by the International Tribunal for the Law of the Sea (ITLOS) for the peaceful settlement of law of the sea disputes and the further implementation of the United Nations Convention on the Law of the Sea (UNCLOS). One of the Foundation's main aims is to promote learning and research in the field of international law of the sea at a global level, in particular for nationals of developing countries.

With this in mind, the Foundation established an annual Summer Academy at the seat of the Tribunal in Hamburg. The Summer Academy is a centre of excellence for studies of both international law of the sea and maritime law and includes related topics of economic and natural sciences. It brings together a prestigious faculty from among the judges of the Tribunal, professors and professionals from the maritime field with a dedicated group of highly-motivated participants from around the world.

Course content

The 4-week course is broken down as follows:

- Week I - Development of the UNCLOS Regime; Dispute Settlement; Procedure and Case Law of the Tribunal; Maritime Zones; Offshore Resources; Maritime Limits and Boundaries
- Week II - Freedom of Navigation and Shipping; Fisheries; Outer Continental Shelf; Maritime Environmental Protection; New Uses of the Ocean
- Week III - Shipping Industry; Maritime Law Overview; Carriage of Goods by the Sea; Arrest of Ships; Salvage and Towing;
- Week IV - Marine Insurance; Oil Pollution; Limitation of Liability; Ship Building; Classification Societies; Vessel Financing

In addition to the above, the Academy involves a social programme of weekend excursions and smaller weekday trips including the opportunity to visit Hamburg, a boat trip around the harbour, a visit to Lubeck and a reception by the Government of Hamburg. This social programme contributes to the development of a network of global alumni – a crucial part of the academy.

Core activities

Coordinated by the British High Commission in Singapore, the UK Government will establish a pilot scholarships programme for ASEAN Member states to participate in the 4-week IFLOS Summer Academy in Hamburg, Germany.

Target audience

Applications for fully funded scholarships will be open to legal advisors and/or relevant officials from the ASEAN member governments with those focusing on maritime issues particularly welcome. Participants may be attached to the ministries of foreign affairs, defence, Attorney Generals chambers or any other relevant ministry.

In order to be selected, participants will need to:

1. Meet the criteria for participation as set by IFLOS:
 - a. Hold a postgraduate degree, be in the process of undertaking a postgraduate degree or close to completion of an undergraduate degree if their studies focus on the issues taught at the Academy;
 - b. Provide two recent reference letters;
 - c. Demonstrate a strong interest in the Law of the Sea and/or Maritime Law through recent academic and professional work.
2. Be available to participate in the course in full 07 August – 02 September including with approval from their employer to participate.
3. Be fluent in English - ideally this will be certified with a TOEFL or IELTS certificate if English is not the native language and/or candidates should have obtained their undergraduate or post-graduate university degree in an English taught programme. If none of the above are applicable, applicants' English level will be tested at interview stage.

Impact of coronavirus

In 2020 and 2021, the Summer Academy was cancelled as a result of the coronavirus pandemic. While the course organisers are currently planning for the 2022 course to go ahead, it is possible that ongoing restrictions to limit the spread of the virus mean that the course cannot proceed in 2022 either.

As far as pandemic-related requirements (vaccination status, mask requirement, etc.) are concerned, participants must adhere to the German legal provisions in force during the period in which the Summer Academy is being held, as well as the requirements applicable in the premises of ITLOS.

The British High Commission in Singapore and IFLOS Summer Academy staff will take a decision about whether the course will go ahead and the scholarships programme can proceed by the end of May 2022. If the course cannot go ahead, the project will not proceed. Until that decision point however, both parties will continue to plan on the basis that the course will run.
