Subject: [SOER6] [Follow Up Actions] 2nd Task Force Meeting on the Development of the 6th ASEAN State of Environment Report (SOER6)

Dear Sir and Madam,

Greetings from ASEAN Secretariat.

This email is with reference to the 2nd Task Force Meeting of the 6th ASEAN State of Environment Report.

We are sharing with you herewith the summary points from the previous meeting, for your kind reference. Please also note that a more elaborated summary from the IGES will be transmitted to AMS in due time.

1. 2nd Task Force Meeting of the 6th ASEAN State of Environment Report was held on 14 March 2022 via video conference. The Meeting served as a consultation platform for Task Force Members, external experts, IGES and ASEAN Secretariat to discuss the content and preliminary findings of the first draft SOER6, and the draft Environmental Data Monitoring and Evaluation (M&E) Framework.

2. In the discussion, Task Force Members, IGES, Experts and ASEAN Secretariat exchanged views and provided feedbacks on the methodology and approaches in developing the SOER6. The discussion covered, among others:

- a. **Report Structure:** SOER6 chapters to be reorganised for a better flow of the information, including the classification of the SOER6 content into three broad themes, namely analysis, projection, and solution, including M&E Framework
- b. **Data & Information:** Information related to climate change is to be derived from the Intergovernmental Panel on Climate Change (IPCC) reports and the recently launched ASEAN State of Climate Change Report (ASCCR).
- c. **SDGs:** The information related to Sustainable Development Goals (SDGs) is to be nationally contextualised.
- d. **M&E Framework:** The M&E Framework is to be separated from the main text of SOER6 (as its annex or as a separate document), considering that the M&E Framework will need to be further developed in a longer period of time. The Meeting also discussed consideration of establishing a task force to be mandated to work on development of an ASEAN Manual on Environmental Assessment, which would include the indicators, metadata, and methods of data collection, following the M&E Framework from the SOER6.
- e. **Other Matters:** The discussion also touched upon matters related to institutional arrangement, consultation processes, national data and information from AMS, and general timeline of the project.

3. The Workshop agreed on the timeline and further actions of the development of the SOER6, as follows:

Activities	Date
1. Task Force Members to share written feedback to the 1 st Draft SOER6, including necessary national data / information	15 March 2022
2. IGES consultation with external experts	March – April 2022
3. Development of the 2 nd Draft SOER6 (based on AMS and Expert feedbacks)	March – April 2022
4. Circulation of the 2 nd Draft SOER6	April 2022

5. 3rd Regional Task Force Meeting (2 days)	May 2022
6. Finalization of SOER6	June 2022
7. Endorsement, printing and launching of SOER6	July 2022
8. Administrative reporting by IGES (to ASEC)	July 2022

4. The Meeting suggested that the 3rd task Force Meeting be conducted in May 2022 for 2 (two) days, with the first day focusing on the recommendations part of SOER6, and the second day focusing on M&E Framework.

In light of the above, we would appreciate to receiving **inputs from AMS to the 1st Draft SOER6, including necessary national data / information, by 15 March 2022.**

Thank you for your kind cooperation.

Best wishes,

Tri

Greetings from ASEAN Secretariat.

We are pleased to kindly inform you on the positive result of the development of **the ASEAN State of Climate Change Report (ASCCR)**, which was developed with the support of the Government of Japan, that provides an overall outlook on the state of play of climate change in the context of ASEAN region and provides recommendations on prioritized regional climate actions toward 2030 and 2050. We would also like to take this opportunity to gladly inform you that ASEAN has commenced the development of **the Sixth ASEAN State of Environment Report (SOER6)** which is also implemented with the strong and continuous support from the Government of Japan.
