Ecosystems Research and Development Bureau
Land Management Bureau
National Water Resources Board
National Mapping and Resource Information Authority

The Regional Executive Directors
All DENR Regional Offices

FROM : **The Director**
Climate Change Service

SUBJECT: REQUEST FOR UPLOADING OF CLEANSED CLIMATE-RELATED DATA/MAPS TO THE DENR ONE CONTROL MAP

DATE : 26 July 2022

This has reference to one of the priorities of Secretary Antonia Yulo-Loyzaga on the need for the generation of geospatial data as well as science-driven information system to facilitate a well-informed policy and decision-making process.

In this regard, may we respectfully reiterate previous requests to your offices to upload the cleansed data/maps to our DENR One Control Map which is being developed and maintained by the Knowledge and Information Systems Service (KISS). These cleansed data/maps will be helpful in our assessment of the DENR's programs and projects using climate lens in addressing climate-related environmental degradation.

Specifically, we would like to prioritize the assessment of data/maps for the development of the Climate Change Information and Management System (CCIMS) initially including, but not limited to the following information:

- areas susceptible to floods and rain-induced landslides
- threats and geo-hazards in protected areas
- occurrence of coral bleaching
- results of carbon stock studies
- carbon sink management and greenhouse gas programs of EIA projects
- results of carrying capacity studies in selected areas
- solid waste and wastewater generation (volumes in tons)

Your appropriate action will be highly appreciated.

ELENIDA dr. BASUG
