UNEP's Junior Professional Officers Programme provides young professionals with hands-on experience in the international arena. JPOs are professional level staff, whose applications for specific positions are submitted to UNEP through their respective governments, who then finance their assignment through trust fund arrangements, normally for a period of two to three years. JPOs have the status of international civil servants and are subject to UN Staff Regulations and Rules. The objective of the Programme is to support the implementation of UNEP's core mission, which is to identify environmental challenges and encourage intergovernmental cooperation and partnerships in addressing environmental problems.

This year, UNEP has identified over 70 potential JPO positions placed in various Divisions and Offices which support the implementation of UNEP's Programme of work and other organizational priorities. Member states are invited to review the proposals taking into account national priorities and to consider funding the recruitment of one or more of these positions.

For more information on how to support UNEP's 2023 JPO programme, please contact the JPO coordination office, via Cecilia Kibare (Cecilia.kibare@un.org) and Sarah Fiedler (sarah.fiedler@un.org).

Please accept, Excellency, the assurances of my highest consideration.
