MEMORANDUM

FOR : **The Bureau Directors**
FMB, ERDB and LMB
All Regional Executive Directors

FROM : **The Director**
Knowledge and Information Systems Service

SUBJECT : **CONTENT MANAGEMENT SYSTEM (CMS) WEBSITE
MIGRATION FROM JOOMLA TO WORDPRESS AND
MIGRATION OF WEB HOSTING SERVICES TO DICT**

DATE : 25 MAY 2023

Currently, all of the Content Management Systems (CMS) being implemented at the Central Office, Regional External DENR Web Portal, Internal DENR Web Portal, GAD Website, and International Commitments were created and managed using Joomla CMS. WordPress, being the most widely used CMS, is a powerful semantic publishing platform that offers many functionalities and will help the agency manage its websites with ease. One of the requirements to access the free hosting services of the DICT is for agencies to utilize the latest version of WordPress.

The migration of the current CMS from Joomla to WordPress is ongoing and this would enable the Department to access the Hosting Services being provided by DICT with the following potential benefits:

1. **Cost savings:** One of the primary advantages is that the web hosting service is provided for free.
2. **Reliability and security:** By utilizing their web hosting service, we may benefit from robust infrastructure, regular backups, and secure hosting environments. This can help protect our websites and their data from potential threats.
3. **Technical support:** We can rely on their support team to assist our Organization with any technical issues or concerns we may encounter.
4. **Compliance with regulations:** Hosting our websites on a government-provided service may ensure compliance with relevant regulations and policies.

With this, may we ask your offices to fill out the details of the form (link and QR Code provided below) which will be used in the preparation of the submission of the required information to DICT.
