The National Water Resources Board will be conducting a roll-out of its Water Permitting Management Information Systems in the DENR Regional Offices through establishing a WPMIS kiosks in the DENR Regional Offices. This will be deployed in the Water Resources Utilities Section (WRUS) of the Licenses, Patents and Deeds Division (LPDD) of the Regional Offices.

Relative to this, kindly include in your distribution list one (1) unit of desktop computer for WRUS that will be used for the above-mentioned purpose.

Further, this office would like to recommend allotting the savings that will be incurred on the abovementioned funds to enhance your network facilities such as structure cabling. This is in consideration with the result of the assessment conducted by this office last year in which improvement in the network infrastructure in some Regional Offices, PENROs and CENROs were necessary.
