“Towards World Class Bureaucracy”

The year 2024 marks a historic event for the discipline of public administration in the Asian Region. It will be the first time that the umbrella organizations of public administration in Asia will be jointly holding an international conference to address the most pressing and burning issues in public administration and the bureaucracy from a global perspective.

The Asian Association for Public Administration (AAPA), the Eastern Regional Organization for Public Administration (EROPA), the Asian Group of Public Administration (AGPA), and the Indonesian Association for Public Administration (IAPA)[1] together with the Ministry of Administrative Reform of Indonesia, National Institute of Public Administration (NIPA), and Universitas Gadjah Mada (UGM), will be holding the first 2024 Joint Conference with the conference theme “Towards World Class Bureaucracy” to be held on **November 5-7, 2024**, at the **Universitas Gadjah Mada, Yogyakarta, Indonesia**.

[1] The AAPA was founded in Tokyo in 2010; the EROPA was founded in Manila in 1960; the AGPA was established in 2010 and is an affiliate of the International Institute of Administrative Sciences (IIAS); and IAPA was also established in 2010.

One of the core foundations of development and growth among nations and institutions is human capital, and within the context of governance, it is the bureaucracy that serves as the backbone for efficiency and effectiveness of the public sector. This has likewise been reaffirmed in recent publications such as the 2024 Regional Human Development Report Making Our Future: New Directions for Human Development in Asia and the Pacific of the United Nations Development Programme where it emphasized, among others, the vital need to invest in capacities and capabilities of the public sector workforce in order to maintain the competitiveness, innovativeness, and preparedness of the public sector workforce in the VUCA world.

It is within this context that the AAPA-EROPA-AGPA-IAPA Joint Conference Organizing Committee is inviting scholars, academicians, practitioners, and all interested individuals to submit their research paper focusing on the main conference theme “Towards World Class Bureaucracy” and the following sub-themes.

	Digital Transformation and Bureaucracy	01
	Algorithmic Public Policy Making using Big Data analytics/Data mining/AI/ Machine Learning/Metaverse	02
	Bureaucratic Entrepreneurship, Innovation and Street-Level Bureaucracy	03
	Leadership in VUCA Bureaucracy	04

	Post-Pandemic Bureaucracy	05
<hr/>		
	Social Inclusion/Exclusion, Gender Representation, Social Equity for Sustainability	06
<hr/>		
	Public Values (Ethics, Transparency, Accountability)	07
<hr/>		
	Risk and Crisis Management (Disaster Management, Environment Management, Community Resilience)	08
