MEMORANDUM

FOR : THE REGIONAL EXECUTIVE DIRECTOR
Regions 1, 2, 4A, 4B, 7, 8, 9, and 10

FROM : THE DIRECTOR
Foreign-Assisted and Special Projects Service

**SUBJECT : DOCUMENTATION OF LESSONS LEARNED, GOOD PRACTICES,
INNOVATIONS, AND SUCCESS STORIES (LGIS)**

The Foreign-Assisted and Special Projects Service (FASPS), through the LGIS, brings together insights from project implementation that can be considered in improving the implementation of other projects, policy formulation/re-formulation, project development, and decision-making. Thus, documentation of LGIS has been one of the options for FASPs-related activities wherein PhP 500,000 can be allotted under Fund 101.A.02D. For CY 2023, your Office has been one of the offices that targeted LGIS documentation.

In the recently concluded Integrated Regional Field Assessment and Validation System for ENR Management (I-RISE), our office was able to validate and assess your accomplishment relative to this activity. Some regions were able to prepare documentation reports while some were able to produce video documentation highlighting the LGIS of completed FASPs.

With this, we would like to extend our appreciation for your efforts in complying with the requirements relative to the FASPs-related activities. To broaden the reach of our information sharing, the video documentation that was submitted to FASPS will be uploaded to the FASPS official social media accounts (e.g., Youtube) and stored in our e-Library. These may be used in our activities (e.g., LGIS Forum), as appropriate. We further encourage your office to also produce other forms of knowledge products, such as infographics and booklets, to further enrich our knowledge base.

For your information.

ALO OROLFO, Ph.D., CESO III
