### PARAGRAPH 2 AREAS OF COOPERATION

- 1. The Participants understand that their cooperation may include but is not limited to the exchange of information, knowledge, best-practices and experiences on carbon credits such as national regulatory frameworks, and policies governing the management and development of greenhouse gas mitigation activities and resources.
- 2. To facilitate future collaborations on Article 6 of the Paris Agreement-aligned projects of mutual benefit and interest, the Participants will endeavour towards the formulation and signing of a legally binding Implementation Agreement that sets out a bilateral framework for the authorisation and transfer of internationally transferred mitigation outcomes (hereinafter referred to as "ITMOs") under which mitigation activities can be implemented, that are consistent with decisions of the CMA. The framework may include modalities and procedures for authorising activities under the Implementation Agreement, for verification of the achieved mitigation outcomes as well as for the creation, authorisation and transfer of ITMOs as defined in decisions of the CMA.
- 3. The Participants acknowledge that such cooperation under the Implementation Agreement referred to at Paragraph 2(2) will operationalise the provisions of the Paris Agreement and its rule book, including the application of corresponding adjustments to avoid double counting of ITMOs, as well as future decisions of the CMA.
- 4. The Participants will identify potential mitigation activities under the Implementation Agreement referred to in Paragraph 2(2), and endeavour to formulate action plans to institute the necessary infrastructure and capabilities to enable such activities.

### Paragraph 3 Confidentiality

1. All information which are obtained or received by a Participant from the other Participant in connection with this MOU (hereinafter referred to as "confidential information"), regardless of whether such information is specifically marked as confidential, shall be held in confidence and shall be used exclusively for the purpose for which it was disclosed. The Participants shall take all reasonable measures to ensure that confidential information is protected against loss and against unauthorised access, and that only authorised personnel have access to confidential information.

# PARAGRAPH 5 LEGAL EFFECT
