DENR SPECIAL ORDER
NO. 3
Series of 1988

SUBJECT: Creation of a monitoring team to determine and recommend actions for implementation regarding the 7,720 cubic meters of timber cut by ISABELA LUMBER INDUSTRIES, INC. (ISLUMCO)

1. In the interest of the service, and for the purpose of determining actions to be undertaken regarding the 7,720 cubic meters of timber cut by Isabela Lumber Industries, Inc. prior to the suspension of their logging operations inside the wilderness area under LOI 917, as amended, a monitoring team is hereby created, composed of the following personnel:

1. Forester Romulo Cadiz - FMB/Team Leader
2. Forester Edgardo Aguno - NRDC/Member
3. Atty. Norberto Capistrano - PAWB/Member
4. Alexander Anda - NRDC/Member
5. Cornelio Piñon - NRDC/Member
6. Assistant District Forester concerned - Region 2/Member

2. The team shall function as follows:

- a. Determine the validity of reported volume of timber cut, their locations and extent of area where they are found.
- b. Determine the appropriateness and implications of allowing the hauling of the already cut timber to a designated dry pond where they shall be gathered and scaled prior to final disposition.
- c. Recommend actions to be implemented as well as continue monitoring the activities the team will recommend until all the logs are hauled and finally disposed.

3. The team leader shall report to the Chairman, TSG, prior to the team's deployment to the area.

4. The team is authorized to seek assistance from the nearest DENR office as they may find necessary.

5. All expenses incurred by members of the team shall be charged to NRDC subject to accounting and auditing rules and regulations.

Underscretary Magdangal Elma
