

DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

January 1987

SPECIAL ORDER

NO. 71  
Series of 1987

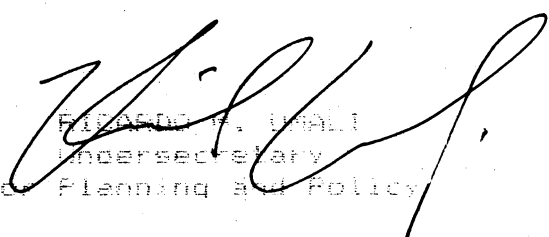

SUBJECT: Compliance with the project requirements of the NEDA-NLUC and NEMRA Inventory of Geographic-Based Information Holdings Project by the Regional Executive Directors of DENR.

In the pursuit of carrying out the requirements of the Inventory of Geographic-Based Information Project, the Information Management Department of the National Mapping and Resource Information Institute (NEMRI) and the National Geographic Committee of DENR and Regional Executive Directors are hereby directed to comply with the project requirements of the above project.

The aforesaid project aims to develop with geographic-based listings of available as well as sources for geographical data information, maps, aerial photos, statistics, demographic, hydrographic and other facilities, and other related data sources and activities, through the conduct of similar activities in the regional offices.

The aforesaid project team will conduct similar activities with DENR and DENR regional offices to expedite the inventory process and implementation of project activities.

In connection herewith, all Regional Executive Directors shall assist and cooperate with the project team and provide the necessary logistic and administrative support, and the conduct of the survey to be carried out in the respective geographic-based information within their respective regions.

  
RICARDO S. UMALI  
Undersecretary  
to Planning and Policy

DENR-Representative, NEDA-NLUC  
Mother Committee
